

# FCFM 2021

**The International Conference on Food Chemistry and Food Microbiology (FCFM 2021)** will be held from May 29-31, 2021 in Guilin, China. FCFM 2021 will cover issues on **Food Science & Technology, Food Microbiology, Novel Food Engineering Techniques, Human Health in Probiotics, Advanced Food Analysis Technologies, Molecular Nutrition, Food Science and Food Business, etc.** It dedicates to creating a stage for exchanging the latest research results and sharing the advanced

research methods.

## CALL FOR PAPERS

**C o n f e r e n c e D a t e :** May 29-31, 2021

**V e n u e :** Guilin, China

**R e g i s t r a t i o n D e a d l i n e :** May 29, 2021

### Topics of interest for submission include, but are not limited to :

Food Science & Technology  
Food Biotechnology and Nutrition  
Food Microbiology  
Food Chemistry  
Novel Food Engineering Techniques  
Microbial Aspects of Food Quality and Spoilage  
Human Health in Probiotics  
Advanced Food Packaging Technologies  
Advanced Food Analysis Technologies  
Nano Technology in Food Industry  
Food Toxicology  
Molecular Nutrition  
Food Testing and Quality Control  
Food Science and Food Business  
Mass Spectrometry in Food Technology and Nutrigenomics  
Chemistry of foods  
Handling techniques  
Efficient storage practices  
Novel preservation methods  
Application of nanotechnology  
Chemical composition of food  
Food biochemistry and food processing  
Analytical methods for food components  
Bioactive constituents, micronutrients, food additives and ingredients  
Antioxidants and lipid oxidation in foods  
Food structure, flavor and quality  
Food contamination  
Food mycology  
Microbial ecology of foods  
Thermal processing  
Liquid concentration

## Publication and Presentation

**Publication:** Open Access Journal.

**Index:** CNKI and Google Scholar

**Note:** If you want to present your research results but do NOT wish to publish a paper, you may simply submit an Abstract to our Registration System.

## Venue

Located in the northeast of Guangxi Zhuang Autonomous Region in south China, Guilin is considered to be the pearl of China's thriving tourist industry on account of the natural beauty and historic treasures. Covering an area of about 27,800 square kilometers (10,734 square miles), the city is rather compact when compared with other major tourist cities in the country. The stunning landscape in which the city is situated has a kind of magic that is all its own. The strangely shaped hills or karsts, with the verdant vegetation ranging from bamboos to conifers together with crystal clear waters and wonderful caves make the city such an appealing destination. It is also an important cultural city with a history of more than 2,000 years. The city has been the political, economic and cultural center of Guangxi since the Northern Song Dynasty (960-1127).
